PEARL NORDIC

Low Ambient Heating Series

Haierhvac.eu

A++ / A++

Discover **PEARL NORDIC** Air Conditioning Series

Offering heating even at extreme -30°C low outdoor ambient temperatures, A++ energy efficiency, freeze prevention technology, and UVC Pro protection for ultimate comfort.

The new **PEARL NORDIC** Air Conditioning range offers Heating & Cooling and is available from 2.5kW - 5.0kW, with energy efficiencies of A++/ A++. Packed with some of our market leading features such as **integrated hOn Wi-Fi**, **Self-Clean function** and **56°C Steri-Clean** for a complete premium offering.

The **Self-Clean** function provides simple and effortless cleaning of the unit by freezing the evaporator with moisture in the air and removes dirt during the defrost process, ensuring clean and healthy air output.

The ambient atmosphere is further improved thanks to the **UVC Pro** module, that inhibits the reproduction of bacteria and sterilises viruses by generating ion clusters in the atmosphere.

The range also delivers heating even at extremely low **-30°C temperatures**, making the new **PEARL NORDIC** perfectly adapted to northern and mountain regions.
